

Trojan Horse Award 2021

Dr. Uschi M. Graham

University of Kentucky, Pharmaceutical Sciences, Lexington, KY

Prof. Günter Oberdörster,

University of Rochester, Medical Center, Rochester, NY

are rewarded with the Trojan Horse Award for their outstanding contribution entitled "Differentiating Translocated Exogenous vs. Bio-generated Endogenous Nanoparticle Types in Olfactory Bulb of Humans with Neurodegeneration". Their contribution gave new insights on the transport of heterogeneous nanoparticle conglomerates into organs with spatially-resolved and element-specific microscopy.
